

DATO IL SEGUENTE CIRCUITO

DATI

$R_1 = 5\text{ k}\Omega$

$R_2 = 5\text{ k}\Omega$

$R_3 = 10\text{ k}\Omega$

$E_1 = 5\text{ V}$

DETERMINARE:

La grandezza  $V_{AB}$

$(R_1 + R_2) = 10\text{ k}\Omega$

$V_{AB} = I_2 \cdot R_1$

$R_3 = 10\text{ k}\Omega$

$V_{BC} = I_2 \cdot R_2$

Fortunately, the London Eye, the city's famous Ferris wheel, was open to the public. The London Eye is situated along the southern shores of the Thames River. This attraction stands 135 meters high. It is one of London's most well-known spots for gaining aerial views of the city. Each capsule of the Ferris wheel can hold up to 25 passengers. When their capsule stopped at the top of the Ferris wheel, the women took spectacular panoramic photographs of the beautiful cityscape below.
